

Power

The Power section circuit diagram shows a solar cell (SC101) and a battery cell (BT101) connected to a voltage regulator (U102). The solar cell is connected to the BAT pin of U101 (CN3065_Breakout), and the battery cell is connected to the GND pin of U101. The output of U101 is connected to the VIN pin of U102 (Regulator_Breakout_3.3). The output of U102 is +3.3V.
